NAKAGAWA SHIRO

(54) INPUT DEVICE

(57)Abstract:

PURPOSE: To instantaneously find seller's and buyer's benefit and to simplify price negotiation.

CONSTITUTION: This input device is provided with an LCD 1, a transparent touch panel 2 arranged in the front of the LCD 1 and an arithmetic processing circuit 3 for executing arithmetic processing in accordance with an instruction inputted by the touch panel 2 and displaying the processed result on the LCD 1. Plural mutually counter values relating to seller's benefit and buyer's one which can be expressed by mutually relational calculation formulas and plural display items corresponding to these values are displayed on the LCD 1. When any one of the display items displayed on the LCD 1 is touched through the panel 2 and updated to a new value, the circuit 3 calculates the value of another display item based upon a previously stored
